Bright Igiekpemi

Dynamic Full Stack Developer with a Passion for Clean Code,
Scalable Architectures, and Continuous Learning.
Lagos State, Nigeria

Summary

As a passionate Full Stack Developer, I thrive on creating innovative web applications that deliver exceptional user experiences. With a strong foundation in PHP, Laravel framework, React.js, Tailwind CSS, and database optimization, I combine technical expertise with a keen eye for design and user-centric solutions.

My journey began as a Technical Support Officer at Marolinks Communications, where I honed my skills in system configuration, troubleshooting, and application development. I further expanded my knowledge through certifications in Web Technology and Business Analysis, equipping me with a comprehensive understanding of web development and data-driven decision-making.

At Oceania Digitals, I leveraged my skills as a Partnerships and Sales Specialist, driving traction and revenue growth for a new business line. Here, I earned a certification in Business Analysis and Process Management from Coursera, solidifying my ability to analyze requirements and optimize processes for efficient software solutions.

Most recently, as a Partnership Associate at Sidebrief, a Techstars-backed company providing legal solutions for startups and SMEs, I conducted business development activities to identify, develop, and administer strategic partnerships, creating new customers and markets.

With a Higher National Diploma in Public Administration from Auchi Polytechnic and a passion for digital literacy and the digital economy, I am driven to empower businesses and society through innovative technology solutions. My goal is to collaborate with visionary companies, leveraging my full stack development expertise to unlock new opportunities and scale ventures to greater heights.

Experience

TNV Prolinks
Software Developer

June 2024 - Present (1 month)

Lagos State, Nigeria

As a highly motivated and skilled Full Stack Developer, I have transitioned my career path to pursue my passion for coding and software development. I have honed my expertise in various technologies, including PHP, Laravel framework, Tailwind and Bootstrap CSS frameworks, React library for JavaScript, MongoDB, and MySQL.

With a strong foundation in coding notation and SQL optimization, I am adept at building robust and scalable web applications. My experience in the business world has equipped me with a deep understanding of user needs and the ability to translate requirements into elegant and efficient software solutions.

I thrive on tackling complex challenges and continuously expanding my knowledge. I am eager to contribute my skills to a forward-thinking organization where I can collaborate with talented developers and create exceptional digital products.
